

I thought I was your best friend. Don't abandon me when you deploy.

I need you to look after me even when you're far from home. Make plans for me before you leave.

Honor your commitment to your four-legged friend by arranging for professional foster care before you deploy.

If you don't make plans for me in time, I'll end up in a shelter. And I might not make it out alive.

More than four million dogs and cats surrendered to shelters each year are killed, due to lack of anyone to adopt them. Make sure your dog or cat isn't one of them.

Contact these charities to apply for pet foster care at least **30-45 days** before you deploy.
